### WOODRUFF WITHDRAWS FOR HIGGINS

FOR REPUBLICAN NOMINATION FOR GOVERNOR AND NOMINATION IS BY ACCLAMATION.

PLATFORM SAYS ALL THE REPUBLICANS OF ROOSEVELT'S OWN STATE ARE FOR HIM.

Chicago Platform and Protection Planks Are Endorsed and Declaration Made To Let Well Enough Alone—Empire State Will Stand Pat on Record.

By Associated Press.

Saratoga, N. Y., Sept. 15.—This morning there were no prospects of reconciliation in the Republican state convention.

Kings County people refuse any concessions. It is evident the factional fighting will be carried to the floor of the convention this afternoon and the session is expected to continue without recess until the business is completed.

When the convention assembled this morning Senator Mabry was made permanent chairman.

There were great ovations as Odell Platt and Woodruff entered the hall. Marching clubs from different cities occupied the galleries and the session was exceptionally stirring.

The platform was adopted. Resolutions by the Kings county delegation demanding an individual vote on the nomination for governor were adopted. The platform declares that the Republicans of Roosevelt's own state congratulate the country on the recent elections in Oregon, Vermont and Maine.

An appeal is made to those who do not want a change for the sake of change and are willing to let well enough alone. It says national as well as state politics are involved in the New York election.

All are urged to faithful duty and it endorses the Chicago platform and protection planks.

Assemblyman Wade presented the name of Lieutenant Governor Higgins for governor, and then William Prenger, guest presented the name of former Lieutenant Governor Woodruff.

The demonstrations delayed the call for balloting.

Woodruff finally appeared on the platform, withdrew before the balloting began and asked that the secretary of the convention cast the solid vote for Frank W. Higgins, who was then nominated by acclamation amid a great demonstration.

Grant, came to this city Wednesday night on the Pittsburg flyer from Morgantown, and were married at the rectory of Christ Episcopal church shortly after their arrival by Rev. James F. Plummer, the rector of the church. It seems that the bride's father objected to the marriage taking place in the city and telephoned to this city and tried to stop the couple from getting married. The young people were too quick, however, and they were united in marriage shortly after their arrival in the city and without interference. They left Thursday for a short honeymoon trip and will no doubt return in due time for the usual parental blessing and forgiveness.

### COMPRESSED AIR SYSTEM OF PUMPING

IS WHAT THE INGERSOLL-SERGEANT DRILL COMPANY WANTS TO INSTALL IN CITY WATER WORKS.

ENGINEER M. L. HYDE IS HERE REPRESENTING THE CONCERN WITH THAT END IN VIEW.

Confers With City Officials and Will Also Confer With City Council—Claims New System Will Give Supply of Pure Water at Reduced Cost.

M. L. Hyde, one of the chief engineers of the Ingersoll-Sergeant Drill Company, of New York, is in the city for the purpose of inducing the city of Clarkburg to install a new pumping and water supply system in its water works. He has been conferring with the city officials and Superintendent of the Water Works Callaghan and will bring his proposition before the city council at the regular meeting on Friday night of this week.

The concern which Mr. Hyde represents manufactures a new compressed air system of extracting water from pure water wells. This new system if installed in the Clarkburg water works system would mean the doing away all together with the steam pumps now in use to pump the water supply to the city water tanks and instead the water would be pumped by the compressed air method. The idea in case of the adoption of this system would be the drilling of six water wells, going down to the pure water supply which it is well known exists all under the city at a distance of about 100 feet, drawing the water therefrom by the compressed air method and thus supplying the reservoir tanks.

The compressed air method means practically drawing the water from the wells by compressed air. A piping is placed in the wells, the compressed air is discharged in the pipes and by inherent expansive force the water is raised around the pipes up the tubing thence into the mains which convey it to the reservoir tanks. This method aerates the water, oxidizes the sulphur and vegetable matter and gives a pure clear water without mud or other sediment. The compressed air is generated by a small air compressor which costs about one-eighth of what the steam pumps cost.

The only thing which Mr. Hyde regards as "hazy" about the new system is the city's financial condition. However, he figures that by this system the water supply can be handled for about .004 per 1000 gallons, which is an approximate reduction of one-third of the present cost. It is his intention to try and induce the city council to spend between \$400 and \$500 in having two wells drilled and thus ascertain what the quality of the water that can be used by the new method. He thinks that when it is seen that a superior quality of water is thus procured, that the city will show no hesitancy in installing the new system.

Mr. Hyde has just finished installing a system at the Weston insane asylum which has a capacity of 500,000 gallons a day. The system which he wants the city of Clarkburg to install would give a capacity of 2,000,000 gallons per day. By this system the same reservoir tanks are to be used, the same mains and connections and so forth, the only change being in the pumping system and the source of water supply.

### EXCELLENT SERMON DELIVERED

BY ELDER R. D. HOTTEL, OF NEW MARKET, VA., AT ADVENTISTS CAMP MEETING AT THE FAIR GROUNDS.

He Tells of the Book of Revelations and Its Meaning and Proves That It Can Be Understood.

He Explains the Meaning of the Seven Churches of Asia to Whom Message to John Was Given—Camp Meeting Progresses With Success.

Elder R. D. Hottel, of New Market, Va., preached to a large audience at the Seventh Day Adventists camp grounds Wednesday evening, using for the basis of his remarks Rev. 3: 22. He said in part as follows:

I wish to call your attention tonight to one of the most interesting books in the Bible—the Revelations. It is claimed by a great many people that the Revelation can not be understood; that it is a sealed book and its contents are a mystery to this day. This is due principally to the fact that it is clothed in symbolic language and many of its appellations are used in a figure. Another reason is that in the book of Revelation is portrayed the final efforts of Satan to deceive the church of God and Satan has blinded the eyes of the world so that they will not be informed as to his manner and methods of leading them astray as set forth in this book. But let us examine it a little more carefully and see if we cannot find evidences within its records that prove that it can be understood. The first verse of the first chapter reads: "The Revelation of Jesus Christ, which God gave unto him." The word "Revelation" does not mean something hid or enshrouded in darkness. It means something revealed, made known, something heralded. And we have further evidence in the first words of this book that it can be understood as set forth in the 3rd verse of this first chapter: "Blessed is he that readeth, and they that hear the words of this prophecy, and keep the things that are written therein; for the time is at hand." It does not seem possible that God would add his blessing to those who hear the words of his prophecy if the prophecy could not be understood. The words of my text says: "Let him that hath an ear hear what the spirit saith unto the churches." We all have ears, and if we lend them to the right purpose God will cause us to understand his truth. Then again, how could we keep something that we are not able to retain? It is very evident, that God does want us to understand the book of Revelation.

The message that was given to John in this book was to be given to the seven churches in Asia. The names of these churches are given as follows: Ephesus, Smyrna, Pergamos, Thyatira, Sardis, Philadelphia and Laodicea. We find that these are not literal churches but rather names given to designate the condition of the church of God from the time of Christ till the end of the world. We know this to be true from the fact that when John turned to hear what the voice said he saw seven golden candlesticks and the Son of God walking up and down in the midst. The candlesticks represent the seven churches and the stars are the seven angels of these churches. We also know that these churches are not local from the nature of the message that was delivered to teach of them. Let us consider for a few moments, the nature of these messages to the seven churches. Ephesus, which was the first church brought to view, means "chief or desirable." This was the condition of the church of the Apostles which existed during the first 100 years of the Christian era. It was a pure church with its doctrines and teachings direct from the Saviour himself. But a change came in that church of which Paul prophesied in Acts 20: 29. "For I know this, that whosoever of you shall depart, shall grudge woe enter in among you, not sparing the Book. Also of your own selves shall men speaking perverse things, to draw away disciples after them."

The second church, as Smyrna, which means "bitter" or "sweet smelling savour." This was the condition of the church.
